1999

Bradley JP, Keller LP: Comparison of collected interplanetary dust particles with dust in space. In Workshop on thermal emission spectroscopy and analysis of dust, disks, and regoliths (AL Sprague, DK Lynch and M Sitko, Eds), LPI Contribution 969, 4-5, Lunar and Planetary Institute, Houston

Brownlee DE, Joswiak DJ, Bradley JP: High spatial resolution analyses of GEMS and other ultrafine grained IDP components. Lunar Planet Sci XXX: CD ROM #2031

Clemett SJ., Messenger S., Keller LP, Zare RN: Are aromatic hydrocarbons the carriers of D/H and \textsuperscript{15}N/\textsuperscript{14}N isotope anomalies in IDPs? Lunar Planet Sci XXX: CD ROM #1783

Flynn GJ: Interplanetary dust, micrometeorites, and meteorites: Chemistry, mineralogy and atmospheric interactions of meteors. 37th Amer. Inst. Aeronautics Astronautics Meeting & Exhibit (Reno, NV, January 11-14, 1999), paper #99-0500

Pepin RO, Palma RL, Schlutter D: Evidence for a dominant component of Solar-Energetic-Particle (SEP) helium and neon in a suite of interplanetary dust particles. Lunar Planet Sci XXX: CD ROM #1864

Rietmeijer FJM: Interplanetary dust particles, micrometeorites, mesospheric metals, and meteoric dust. 37th Amer. Inst. Aeronautics Astronautics Meeting & Exhibit (Reno, NV, January 11-14, 1999), paper #99-0502, 12p

Rietmeijer FJM: Evolution of condensed pre-solar dust with metastable eutectic smectite dehydroxylate compositions: Truly GEMS. Lunar Planet. Sci XXX: CD ROM #1060

Rietmeijer FJM: Energy for dust modification in the solar nebula, and in the first-formed protoplanets and their present-day survivors. Lunar Planet. Sci XXX: CD ROM #1065

Rost D, Stephan T, Jessberger EK: Surface analysis of stratospheric dust particles. Meteoritics Planet Sci 34, 637-646

2000

Joswiak DJ, Brownlee DE, Pepin RO, Schlutter DJ: Characteristics of asteroidal and cometary IDPs obtained from stratospheric collectors: Summary of measured He release temperatures, velocities and descriptive mineralogy. *Lunar Planet. Sci* XXXI: CD ROM #1500

Quirico E, Raynal P-I, Borg J, Demyk K, Dartois E, Aubert D, Aiouaz T, Deboffle D, d’Hendecourt L: The question of the 6.8 µm-band in the spectra of 5 IDPs. Lunar Planet. Sci XXXI: CD ROM #1260

Raynal Pl, Quirico E, Borg J, d’Hendecourt L: Micro-Raman study of the carbon phase in 6 IDPs. Lunar Planet. Sci XXXI: CD ROM #1318

Rietmeijer FJM: Metastable Eutectic Behavior Observed during Dynamic Pyrometamorphism in the Matrix of an Aggregate IDP. Lunar Planet Sci XXXI, CD ROM #1051

Rietmeijer FJM, Nuth III JA: Collected extraterrestrial materials: constraints on meteor and fireball compositions. Special Issue Earth, Moon and Planets: in press

Rietmeijer FJM, Jenniskens P: Recognizing Leonid meteoroids among the collected stratospheric dust. Special Issue Earth, Moon and Planets: in press

Frans J. M. Rietmeijer;

Revised: Albuquerque, August 8, 2000
